

SS22 COLLECTION

A RAY OF SUNSHINE

A luminous image of woman runs through the 2022 summer collection of Oblique Creations and defines a new dynamic and "sunny" femininity.

It is a refined artistic taste that turns into a kaleidoscope of colors and ideas of a "feeling femi-nine" inspired by the fascination for the sun.

The result is a refined 'sun emotion' that draws an aware special woman in the normality of her everyday life. A woman who chooses the fluid and unstructured silhouettes of the maison, embellished with brightly colored prints that reflect the uniqueness of her independent lifestyle.

A versatile and sophisticated couture, suitable for any kinds of body and a real riot of color able to highlight the identity of Oblique Creations' Woman.

The attention to sustainability has always been a priority for Oblique Creations, as the perfect combination between ethics and aesthetics. The choice of a vegan texture (viridis, a corn fiber born from renewable resources) aims to create a line of accessories - bags but also tags and key chains - which preserve the essence of the leather for a total animal free style.
